Pick the right computer.

This applies to anyone who is planning to install BusinessObjects locally or who isn't planning on running the installation on a dedicated computer.

Ideally, you should host BusinessObjects XI Release 2 only on a dedicated server. BusinessObjects should run on a powerful computer whose sole mission is to run BusinessObjects for your organization.

Business Objects XI Release 2 is a must-have addition to any Business Object developer's war chest. She has explained in easy-to-follow terminology HOW to use functions and WHY to use functions. Business Objects is touted as being a user-friendly program but frequently their own documentation is lacking.
