"Earth Science opens with the Big Bang and then introduces basic plate tectonics, so students immediately experience the "action" of the Earth as a system. Learning objectives are identified at the beginning of each chapter and assessed at the end through questions that range from simple review to thought-provoking applications. Additionally, every chapter contains "How Can I Explain" features, which provide simple, hands-on projects that illustrate a key concept. The text's narrative art program explains earth science concepts by breaking down processes into a series of steps. Brief annotations embedded throughout the figures explain each phase. Features such as "What a Scientist Sees," "Science Toolbox," "A Deeper Look," "How Can I Explain," and "Putting
