FAST TRACK TO SUCCESS is a program that Karen wrote for Hope University in Liverpool for their EMPLOYABILITY PROGRAM in 2013 and then extended the program to include 52 units based on the ILM Learning format to suit her Work Programs for Executives/Professionals I based on research working with over 200 clients since 2006. This Program is now available as an E-LEARNING program through www.ccoworkic.com and is based on the USA Stanford University Model. Research was also taken from working with local Employers who she works with in the NW UK to source and place suitable candidates.

Like an unexpected rain storm limiting our visibility, so too is trying to navigate your work and career through business today. Yet, we all have to find a way to navigate the storm or subject ourselves to being carried away to some unknown destination. In Lessons from the Fast Track, Mark Bate shares proven advice on how to integrate your faith into a plan for navigating your career and find more reward in your life. Whether you are a recent college graduate with aspirations to earn your way into management or a middle manager focused on breaking into the executive ranks or a Christian looking for a practical way to integrate God's message into your work life, this book is for you. Take a moment now to read about the seven lessons that will forever change the way you navigate your career!

Following on from a short introduction, this interactive revision book provides exercises, sample questions and answers, and general advice for A-level business studies students.

The dual-credit curricular initiative offers high school students the opportunity to earn college and high school credits simultaneously without taking a standardized test to acquire the credit. The courses are purported to introduce students to a more rigorous curriculum in high school and save them time and money in their pursuit of college degrees. Dual credit programs have grown rapidly, and this monograph provides a synthesis of: [] the scholarly literature on dual credit offered at high school and a variety of postsecondary settings; [] underrepresented students' experiences with the course(s), and [] suggestions for future research and drivers that will influence its development. Originally, these initiatives focused on high-achieving students, but additional models have emerged that expand the benefits to lower- and middle-achieving students as well. This is the third issue of the 42nd volume of the Jossey-Bass series ASHE Higher Education Report. Each monograph is the definitive analysis of a tough higher education issue, based on thorough research of pertinent literature and institutional experiences. Topics are identified by a national survey. Noted practitioners and scholars are then commissioned to write the reports, with experts providing critical reviews of each manuscript before publication.

This text provides an introduction to the ways in which five different disciplines have approached the study of business and government. It examines how business interacts with government in different parts of the world, including the United States, the EU, China, Japan and South America.
