### Grand Prix: The Killer Years (TV Movie 2011) - IMDb

In the 60s and early 70s it was common for Grand Prix drivers to be killed while racing, often televised for millions to see. Mechanical failure, lethal track design, fire and incompetence snuffed out dozens of young drivers. They had become almost expendable as eager young wannabes queued up at the top teams' gates waiting to take their place.

Increasingly, this sort of technical quibbling is what passes for "action" in Formula 1, but back in 1968, as Grand Prix: The Killer Years revealed, F1 had more pressing issues on its mind. Grand Prix racing had always been dangerous, but this was the year when the bleak drumbeat of racing fatalities reached a hideous crescendo.

### **Grand Prix: The Killer Years, BBC Four | Page 3 | The Arts ...**

The seminal film 'Grand Prix the Killer Years', a shocking insight into when Grand Prix was out of control, has been released as a book. John Matthews, the co-director and producer of the original film and editor of the book says 'when we made 'Killer Years', most of the amazing interviews had to be left out, which I found very frustrating.

This is the story of when Grand Prix was out of control. Mechanical failure, lethal track design, fire and incompetence snuffed out dozens of eager young drivers, who had become almost expendable. It was the '60s and early '70s and this waste of life was often televised for millions to see. With boycotts of the prestigious Belgian and German Grand Prix, drivers fought to get their voices heard but it would be a long and painful time before conditions changed. Featuring many famous drivers, including three World Champions - Emerson Fittipaldi, Sir Jackie Stewart and John Surtees OBE - John L Matthews goes to the heart of these deadly years in the Grand Prix and tells the story in the words of the men who were there.

Photographs and explanatory notes document America's intervention in Vietnam, examining the destruction of the Vietnamese people and their environment.

In THE LIMIT, Michael Cannell tells the enthralling story of Phil Hill-a lowly California mechanic who would become the first American-born driver to win the Grand Prix-and, on the fiftieth anniversary of his triumph, brings to life a vanished world of glamour, valor, and daring. With the pacing and vivid description of a novel, THE LIMIT charts the journey that brought Hill from dusty California lots racing midget cars into the ranks of a singular breed of men, competing with daredevils for glory on Grand Prix tracks across Europe. Facing death at every turn, these men rounded circuits at well over 150 mph in an era before seat belts or roll bars-an era when drivers were "crushed, burned, and beheaded with unnerving regularity." From the stink of

grease-smothered pits to the long anxious nights in lonely European hotels, from the tense camaraderie of teammates to the trembling suspense of photo finishes, THE LIMIT captures the 1961 season that would mark the high point of Hill's career. It brings readers up close to the remarkable men who surrounded Hill on the circuit—men like Hill's teammate and rival, the soigné and cool-headed German count Wolfgang Von Trips (nicknamed "Count Von Crash"), and Enzo Ferrari, the reclusive and monomaniacal padrone of the Ferrari racing empire. Race by race, THE LIMIT carries readers to its riveting and startling climax—the final contest that would decide it all, one of the deadliest in Grand Prix history.

Sir Jackie Stewart is one of the most highly regarded names in global sport - winner of three F1 World Championships, 27 Grands Prix and ranked in the top five drivers of all time. On retiring from the circuit, he went on to build an equally impressive international business career. In the 1960s and into the 70s, with his black cap, sideburns and aviator shades Jackie Stewart was an unmistakable icon in a glorious era of style, glamour and speed. On the track, his story is one of drama, excitement, tragedy, controversy, celebrity, danger and massive success. Beyond the sport his life is a compelling tale of battling against the odds and achieving world-wide recognition as an outstanding sportsman, a role model and a highly accomplished and respected businessman.

'It's pretty rare to come across a motor racing book that tempts you to read the thing in one sitting but "Prof" Watkins has produced a gem ... [he] is a superb raconteur, not afraid to speak his mind yet peppering the gravity with occasionally side-splitting humour. No true motorsport fan should be without this book.' Autosport Grand Prix racing has undergone sweeping changes in the last thirty years. Many of these involve safety and medical rescue. The man behind them - a champion in the racing world although he has never won a race - is the eminent neurosurgeon Sid Watkins. Life at the Limit is his remarkable story. It spans the most exciting years in Grand Prix racing and includes intimate portraits of motorsport's greatest names, from Jackie Stewart and Niki Lauda to Alain Prost and Damon Hill. Sid Watkins has also witnessed, at first hand, some of the most severe and spectacular racing accidents. His account of these is made all the more poignant by the fact that some of the men he has rescued, sometimes at the point of death, have been personal friends. From Monza, in 1978, where Ronnie Petersen suffered a fatal accident, to Imola in May 1994 where Ayrton Senna met his untimely death, the high, and low, points of Grand Prix racing are vividly described. For all fans of Formula One, this is the inside story of the world's most dangerous sport.

The number of athletes who have died competing in the sport of motor racing, including amateurs and professionals around the world, stretches into the thousands. Despite the danger, drivers continue to compete day in and day out for the thrill and joy of the race. In Taken by Speed: Fallen Heroes of Motor Sport and Their Legacies, Connie Ann Kirk pays tribute to professional racing drivers who died while competing in the sport they loved. Covering tragedies from 1955 to the present, Kirk carefully reflects on the legacies of the racers and the impact of the tragic events, including on safety regulations, innovations, and on society as a whole. Drivers and incidents covered in this book include the 24 Heures du Mans race of 1955 where over 80 people died; the 1964 crash at the Indianapolis 500 that stopped the race for the first time in history; and the tragic losses of racers Ayrton Senna, Dale Earnhardt, Alberto Ascari, Jim Clark, Bruce McLaren, Gilles Villeneuve, Francois Cevert, Dan Wheldon, Justin Wilson, and Jules Bianchi. Taken by Speed features exclusive interviews with legends of motor sport—Mario Andretti, Derek Bell, Sir Stirling Moss, Bobby Rahal, Brian Redman, and Sir Jackie Stewart—who raced in the sport's most dangerous era. It also includes timelines of safety improvements in the sport and key moments in motor sport history. Using

motor sports as its lens, this book explores moving stories of what it means to pursue a life's passion with unwavering drive, commitment, and courage.

NEW YORK TIMES BESTSELLER • NOW A TNT ORIGINAL SERIES • “A first-rate tale of crime and punishment that will keep readers guessing until the final pages.”—Entertainment Weekly “Caleb Carr’s rich period thriller takes us back to the moment in history when the modern idea of the serial killer became available to us.”—The Detroit News When *The Alienist* was first published in 1994, it was a major phenomenon, spending six months on the New York Times bestseller list, receiving critical acclaim, and selling millions of copies. This modern classic continues to be a touchstone of historical suspense fiction for readers everywhere. The year is 1896. The city is New York. Newspaper reporter John Schuyler Moore is summoned by his friend Dr. Laszlo Kreizler—a psychologist, or “alienist”—to view the horribly mutilated body of an adolescent boy abandoned on the unfinished Williamsburg Bridge. From there the two embark on a revolutionary effort in criminology: creating a psychological profile of the perpetrator based on the details of his crimes. Their dangerous quest takes them into the tortured past and twisted mind of a murderer who will kill again before their hunt is over. Fast-paced and riveting, infused with historical detail, *The Alienist* conjures up Gilded Age New York, with its tenements and mansions, corrupt cops and flamboyant gangsters, shining opera houses and seamy gin mills. It is an age in which questioning society’s belief that all killers are born, not made, could have unexpected and fatal consequences. Praise for *The Alienist* “[A] delicious premise . . . Its settings and characterizations are much more sophisticated than the run-of-the-mill thrillers that line the shelves in bookstores.”—The Washington Post Book World “Mesmerizing.”—Detroit Free Press “The method of the hunt and the disparate team of hunters lift the tale beyond the level of a good thriller—way beyond. . . . A remarkable combination of historical novel and psychological thriller.”—The Buffalo News “Engrossing.”—Newsweek “Gripping, atmospheric . . . intelligent and entertaining.”—USA Today “A high-spirited, charged-up and unfailingly smart thriller.”—Los Angeles Times “Keeps readers turning pages well past their bedtime.”—San Francisco Chronicle

When Ayrton Senna and Roland Ratzenberger were killed at the 1994 San Marino GP, it focused the minds of F1 officials and race fans alike on whether it was right to expect a driver to risk his life. A flurry of regulation changes followed. In *The Science of Safety* David Tremayne examines the philosophy and technology behind F1's ever-evolving regulations, and talks to the men who have helped raise safety standards to a new level. Contains statistics on driver deaths and technical advances.

When Florida Porsche dealer Dave Maraj launched his Champion Racing team in 1993, few observers would have guessed it would eventually become a top competitor in the American Le Mans Series, the Speedvision World Challenge, and even the 24 Hours of Le Mans. In this book, author David Tremayne tells the full story of the team's rise, and explains how Maraj's commitment to hard work, intense preparation, and empowering the right people made all the difference.
