The OrchidGarden company is a family business established in 2008. We grow botanical and hybrid orchids. The narrow specialization of our company may come as a surprise, but botanical orchids are fascinating plants. The Orchidaceae family includes over 27,000 botanical species and several times more hybrids.

The OrchidGarden. We grow botanical and hybrid orchids. Orchids generally prefer bright but filtered light. They need protection from direct sunshine. Watering, humidity and feeding. Orchids prefer high air humidity, but their roots will rot easily in wet compost. Water them about once a week, ideally using tepid rainwater. Water from above and tip out
