Containing information in a user-friendly format, this directory sets out to help the distance learner make an informed career choice, and look up the correct information on where and what to study.

Using a balanced approach, Social Psychology, 2e connects social psychology theories, research methods, and basic findings to real-world applications with a current-events emphasis. Coverage of culture and diversity is integrated into every chapter in addition to strong representation throughout of regionally relevant topics such as: Indigenous perspectives; environmental psychology and conservation; community psychology; gender identity; and attraction and close relationships (including same-sex marriage in different cultures, gendered behaviours when dating, and updated data on online dating), making this visually engaging textbook useful for all social psychology students.

The object of this publication is to provide youth, as well as people and organizations involved and interested in youth-related issues, with a comprehensive source of information on South African young organizations and related relevant issues.

This report is part of WHO's response to the 49th World Health Assembly held in 1996 which adopted a resolution declaring violence a major and growing public health problem across the world. It is aimed largely at researchers and practitioners including health care workers, social workers, educators and law enforcement officials.
