The New GL concept covers all the functions and requirements in one place providing the functions: Document Splitting. Balanced books (zero balance) by dimensions like Profit Center, segment, Business area etc. Real-time integration of Financial Accounting with FI.

New General Ledger – Introduction | SAP Blogs
New General Ledger Configuration in SAP ECC 6.0. The main purpose of G/L accounting in SAP is to provide a comprehensive picture of external accounting and accounts. Recording all business transactions (primary postings as well

as settlements from internal accounting) in a software system that is fully integrated with all the other operational areas of a company ensures that the accounting data is always complete and accurate.
