Leatherface was a fictional character, but some of the elements from 1974’s The Texas Chainsaw Massacre were loosely based on true stories. The slasher was directed by horror legend Tobe Hooper for a remarkably low budget, and The Texas Chainsaw Massacre, or "Chain Saw" as it was first written, is still considered one of the most influential movies in the horror genre.

True Philippine Ghost Stories #16

From the 1950s through the 1970s, blue-collar Filipino Americans, or Pinoys, lived a hardscrabble existence. Immigrant parents endured blatant racism, sporadic violence, and poverty while their US-born children faced more subtle forms of racism, such as the low expectations of teachers and counselors in the public school system. In this collection of autobiographical essays, acclaimed novelist and short-story writer Peter Bacho centers the experiences of the Pinoy generation that grew up in Seattle’s multiethnic neighborhoods, from the Central Area to Beacon Hill to Rainier Valley. He recounts intimate moments of everyday life: fishing with marshmallows at Madison Beach, playing bruising games of basketball at Madrona Park, and celebrating with his uncles in Chinatown as hundreds of workers returned from Alaska canneries in the fall. He also relates vivid stories of defiance and activism, including resistance to the union-busting efforts of the federal government in the 1950s and organizing for decent housing and services for elders in the 1970s. Sharing a life inextricably connected to his community and the generation that came before him, this memoir is a tribute to Filipino Seattle.

Named one of the best books of 2018 by NPR, Real Simple, Lit Hub, The Boston Globe, San Francisco Chronicle, The New York Post, Kirkus Reviews, and The New York Public Library "A saga rich with origin myths, national and personal . . . Castillo is part of a younger generation of American writers instilling literature with a layered sense of identity." --Vogue How many lives fit in a lifetime? When Hero De Vera arrives in America--haunted by the political upheaval in the Philippines and disowned by her parents--she's already on her third. Her uncle gives her a fresh start in the Bay Area, and he doesn't ask about her past. His younger wife knows enough about the might and secrecy of the De Vera family to keep her head down. But their daughter--the first American-born daughter in the family--can't resist asking Hero about her damaged hands. An increasingly relevant story told with startling lucidity, humor, and an uncanny ear for the intimacies and shorthand of family ritual, America Is Not the Heart is a sprawling, soulful debut about three generations of women in one family struggling to balance the promise of the American dream and the unshakeable grip of history. With exuberance, grit, and sly tenderness, here is a family saga; an origin story; a romance; a narrative of two nations and the people who leave one home to grasp at another.

Memoir about a precocious boy with albinism from a rural Philippine village who grew up to become a woman in America, describing her navigation through the complex spheres of race, class, sexuality, and her place within the gay/LGBTQ community.

What do you get when you take a 30-something Pinoy, who fancies himself a writer, from the Philippines and transplant him to America? You get "Pinoy in America: The stateside life in the time of Barack Obama, Facebook and Pacquiao-mania," an immigrant notebook that chronicles the adventures and misadventures of Pinoys in their adopted land. The author, Lorenzo Paron III, an English teacher at the University of the Philippines before moving to the U.S., takes his cue from his first years as an "immigrant," a period of learning and unlearning that, as he finds, many others have gone through before him and many more undoubtedly will. He shares the stories[always poignant, always moving]of the Filipinos he meets as he tries to carve a home in a new land: old-timers eager to share the voice of experience; young guns audaciously taking on the challenges but also opportunities in the complex landscape that is America; the proverbial Filipinos who are "more American than Americans"; and second- or third-generation Filipinos reaching out to their parents' homeland. Paron discovers that just because you've spoken English, gone to McDonald's and watched Hollywood movies all your life doesn't mean you'll instantly fit right in in America. On the contrary, the story becomes more interesting if you think you will. Witnessing how others have managed to become Americans and yet stay true to their Filipino roots, Paron, a true-blue Bikolano, finds that the secret often is to nurture a dual mind-set that allows for constant reminiscence but also leaves room for living in the now. Home is a matter of mind, Paron says. At times lighthearted and at times musing, "Pinoy in America" offers a look at the Filipino-American life from inside, and Paron finds that the story is not always as simple and clear-cut as it often seems when seen from the homeland.
